

## Exceptional Family Member Program (EFMP) - Family Support:

The Airman & Family Readiness Center is a resource available to obtain on/off base information and referral services for military families with special needs . A sample of things we can help with is as follows:

- Provide material so you can learn more about your family member's condition
- Help you to explore options
- Link you to a variety of service agencies
- Connect you to professionals & materials on several areas that affect your child
- Teach you how to become a strong advocate for your child
- Give you tools to help track medical care your child receives
- Provide you with information on when and where the next Special Needs Committee Meeting will take place
  - The Special Needs Committee is looking at ways to provide parent training, support programs, relocation assistance, financial and school information to better assist families. We need your help to make the EFMP/Family Support Program a success at Minot AFB
