

AUTO HOBBY

Basic Car Care Class

Learn the basics of car care at Auto Hobby. Class instruction highlights auto safety, jump starting a vehicle, reviewing the vehicle's owner's manual, locating the spare tire and jack, and changing a tire. Class participants must bring their own vehicle for this hands-on training.

Welding Instruction

Welding instruction is provided for those interested in using the welding equipment at Auto Hobby. Welding will be taught by a qualified welding instructor. Class sessions are limited to two people. Instruction in both hands-on and video training. Classes offered by appointment only.

Snow Removal

During the months of October through March, base residents can call the Snow Removal Hotline: (701) 723-6134, leave their name, address and telephone number and Auto Hobby will call with a time that they will clear your driveway. Cost is \$20 per driveway; \$10 per driveway for spouses of deployed members (copy of orders needed for proof). Fee is per individual housing unit.

On-Base Roadside Assistance

Call Auto Hobby during business hours for a jump start, if you need a flat tire changed, etc. and Auto Hobby will help you out for the low cost of \$20.

arts & crafts AUTO HOBBY

arts & crafts

Stop by the arts & crafts center and learn a new hobby or catch up on the newest trends of one you already know. A variety of services are available to military, retirees, civilians and their families.

Custom Framing

The center has a complete Custom Framing center offering custom and do-it-yourself framing. There are many styles of molding available, along with over 100 colors and styles of matte board to choose from. The center also offers do-it-yourself framers the room and equipment needed to complete their own projects.

Custom Engraving

Personalize a gift, plaque or award with the center's Custom Engraving service. There are many choices of plaques, plates, desk signs, name badges, glass and crystal pieces to choose from. Wood, plastic, metal, glass and leather are some of the materials engravable by the center's laser engraver.

Custom Embroidery

Custom embroidery is also offered by the center, utilizing a 4 head state of the art embroidery machine. Capable of embroidering a name, design or logo for teams, squadrons or individuals. A catalog with over 16,000 stock designs is available to offer a wide selection of images.

Magic Touch

The newest addition to the Arts & Crafts Center's services is Magic Touch, allowing screen printing on virtually any surface, including fabrics, cardboard, plastics, leather, ceramics, glass and metal.

County Crafts Consignment Store

The Country Crafts and More consignment store provides an outlet for local hobbyists. The consignment area carries all types of artwork and craft items ranging from baby clothing to stained glass items and antiques. Look here first for unique gifts and household decorations.

Prints and Posters

There are many prints in stock in the Prints and Posters area. Prints in stock are mostly military related, including several B-52 prints by various artists. Customers may also special order prints not currently in the inventory.

Classes

Learning a new hobby is as easy as signing up for one of the many classes provided throughout the year. Choose from ceramics, oil painting, drawing, quilting, sewing, knitting and crocheting, pottery, stamping, scrapbooking, counted cross-stitch, framing, creative kids and more. Supplies for many of the classes are available in the retail store. Many craft and hobby books are available for purchase. If you can't find what you're looking for, ask a staff member and they will be glad to special order items specifically for you.

AUTO HOBBY

Auto Hobby offers a wide variety of knowledge and tools to meet the needs and desires of the "do-it-yourself auto mechanic" as well as some services performed by the staff.

Services

Services include brake drum and rotor machining, Snap-On diagnostic for domestic vehicles up to 1999, small engine service, snow removal of driveways, and strut and spring separation upon request, small engine repair, overnight inside storage, outside storage in back lot, engine storage, and wheel balancing by staff. A limited quantity of auto supplies are available, special order parts same day or next day pending part availability from town.

Do-it-Yourself Services

Tire change self help, oil change rack, bench work, lift stall, flat stall, heavy duty press, battery test, battery charge, welding/MIG, oxygen/acetylene or arc, viper jet parts washer cabinet, and three car wash bays and two commercial vacuums with air freshener options are available.
